

We are looking for a System Architect to join our Cologne office. PlagScan is a prospering tech company developing cutting edge algorithms and user interfaces for full text analyses. Our Cloud Software PlagScan (SaaS) is on a mission to set THE universal standard for plagiarism checking, in order to enable a fair valuation of scientific and educational writing.

As an easygoing and downright ambitious team of around twenty people the product already helps more than 250.000 users every month! PlagScan operates in 4 languages and has over 2000 organizations as customers on all continents. As market leader in D/A/CH PlagScan is now specifically reaching out to USA and Australia.

System Architect at PlagScan

Cologne, permanent position, fulltime

TOP-Features: IMPACT, FREEDOM, DIVERSITY

These will be your tasks:

- Responsibility for the entire system infrastructure
- Realization of system integration projects
- Supporting distributed systems & adjusting new modules
