PlagScan Is Awarded One Of The Most Prestigious Business Accolades Of The EdTech Industry

Cologne-based Scale-Up One Of The Top 10 EdTech Solution Providers In Europe

(COLOGNE, Germany, December 2019) - **PlagScan, safeguard of academic integrity worldwide, was awarded one of the 'Top 10 EdTech Solution Providers in Europe - 2019' by the Education Technology Insights Magazine. Through this accolade, PlagScan's global quest for fair and equal education systems through intelligent and agile software solutions has been recognized.**

Plagiarism Detection And Authorship Verification Tools To Safeguard Academic Integrity

When PlagScan was founded 10 years ago, both founders wanted to provide educators with a reliable tool to make sure that credit is given where credit is due. This can be achieved by two approaches, plagiarism detection and authorship verification. "While PlagScan traditionally analyses whether a text is copied or not, it now also provides compelling evidence whether the student himself/herself has written the assignment. Our Author Metrics feature is based on the most recent advances in Computational Linguistics, in particular Stylometry, and the Peer Group Similarity Hypothesis, which helps users to detect ghostwriting," says Markus Goldbach, CEO and co-founder of PlagScan.

EdTech Solution Provider That Focuses On Prevention Instead Of Punishment

In many cases, students aren't 'criminals' that need to be punished - just because they didn't cite a source correctly. They often need to learn first how to use and cite the myriads of content and information sources that are digitally and freely available online. Markus Goldbach explains: "If you gently nudge students to pen down their original thoughts, it will help them become creative thinkers and writers in all walks of life."

(more)

For more profound views on this topic, PlagScan's CEO Markus Goldbach is happy to discuss with members of the media, how the PlagScan solution can have an impact on global education. Please reach out to press@plagscan.com or call +49 (0) 221 75988994 to arrange an interview.
